# **How To Get Better Golf Scores - Dual Hinge Golf Swing Training Aids**

Dual hinge golf swing training aids is something you should know about if you are ready to decrease your golf scores and improve your swing. You will witness plenty of individuals training on the range, attempting to enhance their golf swing but really not receiving any feedback (other than the actual shot itself) as to why they are not hitting the ball perfectly.

This can definitely be aggravating and instead of finding out the issue immediately, they ingrain this faulty procedure into their golf game. Dual hinge golf trainers are golf aids that quickly find complications with your golf swing.

It will allow you to swing a golf club with the appropriate tempo and timing and in the right golf swing plane. If you can nail these three criteria together and get them correct, you will realize that your shots will go further and straighter and be greatly more accurate.

You might also realize a decrease in hooks and slices and a decrease in your overall golf score too. So how will these swing training aids help you accomplish this?

The secret lies within the dual hinge equipment that quickly identifies once your swing is out of tempo, timing and right swing plane. Pretty much what takes place is that if there is a flaw in your take away, back swing, down swing or take away, the hinge on the club might flip open and it will quickly break the club at the hinge.

Therefore you realize specifically at what point you must make get better for your very following swing! Learning to swing the club without breaking it ensures you are nailing down the three criteria and on your way to the textbook swing!

Golf trainers like dual hinge golf swing training aids are accessible in drivers and irons. They are like having a pro golf instructor monitoring your every swing!
